

STANDARDS

All Beaumont Tiles are tested for compliance with Australian and European Standards. These tests are conducted by the CSIRO or an equivalent International Centre. The data and specification sheets covering any tile are available through a local Beaumont Tiles representative.

Note: All sizes detailed in this booklet are nominal. Slip resistance test results may change with use. This can be due to 'smoothing' of the surface due to wear, or conversely due to abrasion and roughening of a tiled surface. An unsatisfactory cleaning regimen can cause a change to the tested slip resistance.

Australian Standard	TEST FOR
AS 4586:2004	RESISTANCE TO SLIP
AS 4459-9:1997	RESISTANCE TO THERMAL SHOCK
AS 4459-2:1999	DIMENSION & SURFACE QUALITY
AS 4459-5:1999	RESISTANCE TO IMPACT
AS 4459-13:1999	RESISTANCE TO CHEMICALS
AS 4459-12:1999	RESISTANCE TO FROST
AS 4459-14:1999	RESISTANCE TO STAINING
AS 4459-6:1999	RESISTANCE TO DEEP ABRASION
AS 4459-3:1999	WATER ABSORPTION
AS 4459-10:1999	EXPANSION FROM MOISTURE
AS 4459-8:1997	THERMAL EXPANSION
AS 4459-4:1997	BREAKING STRENGTH
