Protect Neighboring Surfaces

Always protect neighboring surfaces including wood, carpet, metal, landscaping and other masonry and non masonry surfaces.

APPLICATION INSTRUCTIONS

Read entire label and PDS/MSDS before using. This product is to be used directly from container and is not under any circumstances to be thinned or diluted with anything before use.

Shake well before and during use. Squeeze onto a damp cloth or abrasive nylon pad and apply directly to the soiled surface. For larger areas it may be squeezed directly onto the surface. Scrub the surface in a circular motion for best results. Remove loosened dirt with a clean, damp cloth or sponge. Rinse with clean water as needed.

For floor surfaces, squeeze directly onto the surface to be cleaned. Scrub the surface until clean using a slow speed **Marble Master** (150 rpm -320 rpm) floor machine equipped with a nylon scrub brush or pad. Typically, cleaning is accomplished in seconds. Rinse with clean water where necessary to remove loosened dirt, film and residual cleaner. After cleaning, once the surface is dry to the touch, it may be put into service again.

Special Notes

Do not use on polished marble, limestone or other calcium-base surfaces. Be careful to choose the appropriate stripping pad or brush. Do not allow to dry on the surface.

Heavy Duty Cleaning: Use **Phosphoric Acid Cleaner**, **HDAC** and **Liquid Poultice** as directed.

Water, Stain & Slip Protection

For the best protection and to aid in future cleaning, we recommend sealing all surfaces with the appropriate **Miracle Penetrating Sealer/Impregnator**.

Coverage

Coverage will vary depending on density, porosity, texture, surface absorption, weather, time solution left on surface and application methods. Used as directed, **Porcelain & Ceramic Tile Cleaner** will cover approximately 1200 - 2000 square feet per gallon (100 - 180 square meters) per gallon, 300 - 500 square feet (27 - 45 square meters) per quart.
