Hotwire
warm your soul

The Hotwire WiFi Thermostat is a simply beautiful product.

Simple to use and elegant in its design.

Connect to Google Home or Amazon Alexa. Control from an App or simply turn your floor heating on and off from the screen as required.

The full colour display is simple and easy to use.

You can even lock the screen to prevent the smaller people in your home from changing the settings.

HWGL1
Technical Data

Operating voltage: AC 220...240 V
Frequency: 50 or 60 Hz
Max load: 16A
Setpoint range: 5 – 30 °C(ambient);5 – 40 C(floor)
Weight: 0.25 kg
Working Temperature: 0...+50 °C
Relative humidity: <95%
Storage Temperature: -20...+50 °C
Degree of protection: IP21
Standard: IEC 60529:1989+A1:1999+A2:2013
